Compressed Air Solutions by SIA

At SIA Compressors & Generators, we specialise in delivering comprehensive compressed air solutions tailored to meet the unique demands of various industries.

Whether you're in chemical processing, pharmaceuticals, oil & gas, food & beverage, automotive or industrial manufacturing, our bespoke systems are designed to ensure optimal performance and efficiency. Our extensive product range includes air compressors, vacuum, filtration & drying solutions with both oxygen and nitrogen generation, all crafted to suit your specific industrial needs and demanding requirements.

CompAir: Over 200 Years of Engineering Excellence

With a rich heritage of over two centuries, CompAir has established itself as a worldwide leader in the development of reliable, energy-efficient air compressors.

Their diverse range includes contact cooled lubricated and oil-free rotary screw type compressors, as well as oil-free scroll type compressors, ensuring that you find the perfect solution for your applications. At SIA, we proudly supply the full range of CompAir compressors, including the L Series, Ultima, D & DX Series, S Series, Champion and Hydrovane HV Series, all designed to meet your specific operational needs.

BOGE: Trusted by Industry for Over a Century

For more than 115 years, BOGE (Best of German Engineering) has been synonymous with high-quality air compressors, offering proven technology that delivers dependable performance.

BOGE's portfolio features a wide array of industrial air compressors, including both contact cooled lubricated and oil-free screw compressors ranging from 0.74 to 353 kW. SIA supplies and services the entire BOGE range, including the C, S, Eco, EO, SO, K, and SE Series, ensuring that you receive the quality and reliability your operations demand.

Bambi: Precision Performance for Specialised Applications

Bambi air compressors are engineered for high performance, providing precision-made systems ideal for medical, dental, laboratory, and OEM applications.

Their revolutionary VT range of oil-free compressors boasts one of the lowest noise levels in the industry, paired with an innovative air dryer unit available in capacities from 0.55 kW to 2.5 kW. SIA offers a wide selection of Bambi compressors, including the VT piston air compressors and the silent MD, BB, and PT ranges, to meet your specific requirements.

The high performance Bambi FS range for Fire Sprinkler Systems are oil-free for dry pipe sprinkler systems and are specially designed to meet the stringent needs of LPC requirements.

ABAC: Versatile Solutions for Growing Demands

ABAC delivers a versatile range of compressors, designed to meet a variety of automotive and industrial needs with powerful add-ons that adapt to increasing demands.

At SIA, we supply ABAC piston and rotary screw type air compressors, from the robust PRO AM29B 50CM2 to the high-capacity PRO A39 270 FM3 Tandem, providing reliable and scalable solutions for your business.

Air Quality Standards, Filtration & Drying

Maintaining clean, dry air and gas is critical to the longevity and efficiency of your production and equipment.

SIA Compressors & Generators offers an extensive range of air and gas purification and treatment products, including high efficiency filtration, dryers, catalytic converters, storage, waste condensate systems to comply with the duty of care law from industry leaders like NANO, BOGE, CompAir and UltraFilter UK. Our products are engineered to meet the highest air quality standards whether it be instrumentation, food safe, medical or sterile air quality standards, ensuring your operations remain efficient and compliant.

Nitrogen and Oxygen Generators

SIA Compressors & Generators is your trusted source for high-performance oxygen and nitrogen generators from leading manufacturers Nano and BOGE.

Designed for efficiency, reliability, and high purity levels, our generators are ideal for a wide range of industrial applications. Whether you need a continuous supply of oxygen or nitrogen, our systems provide the consistent performance you require.

Design and Installation Services

Our expertise goes beyond supply—we also design and install complete compressed air packages tailored to your specific needs, including custom solutions like bespoke containerised or GRP enclosures.

Following a detailed survey and consultation, we can develop an optimized pipework design that enhances system performance, reduces pressure drop, and boosting system efficiency. SIA also manages the entire installation process and provides comprehensive training for your team, ensuring a seamless transition to your new system.

Comprehensive Service & Support

SIA Compressors & Generators is committed to keeping your operations running smoothly with a full suite of service and support options.

We offer customised service programs for all makes and models of compressors and associated compressed air equipment, nitrogen and oxygen generators, minimizing the risk of breakdowns and extending the life of your equipment. Our service offerings include:

-  Factory-trained engineers with cutting-edge diagnostic tools
-  Industry-leading response times for breakdowns
-  Extensive stock of genuine parts and coolants
-  Leak detection
-  On-site operator training
-  BOSIET-approved engineers for offshore work
-  Service contracts and extended warranties tailored to your needs

At SIA Compressors & Generators, we're dedicated to providing you with reliable, efficient solutions that keep your operations running at peak performance.

SIA Compressors & Generators: Part of the Scot JCB Group

SIA Compressors & Generators is proud to be part of the Scot JCB Group, a trusted name with over 50 years of experience in providing high-quality engineering solutions across the UK. The Scot JCB Group includes several specialist divisions, such as Scot JCB, Stewart Plant Sales, and Scot Agri, each focused on delivering excellence in their respective fields. As the Group's compressed air solutions specialist, we benefit from a wealth of shared knowledge, resources, and industry expertise, ensuring that we offer our clients the same high standards of reliability, service, and support. Our commitment to quality and customer satisfaction is at the heart of everything we do, backed by the strong reputation and proven track record of the Scot JCB Group.
